

"Pride Goeth

Before a Fall."

Some proud people think they have strong constitutions, and ridicule the idea of disease. Such people neglect their health, let the blood run down, and their stomach, kidneys and liver become deranged.

Don't be foolish about your health. Use Hood's Sarsaparilla and you will prevent the fall and save your pride.

Scrofulous Hip Disease.—"My boy Willie had scrofulous hip disease from a baby. Abscesses developed. Months at the hospital, with best treatment, did no good. They said he would never walk again. He was helpless and wasted away to nothing but skin and bone. Hood's Sarsaparilla had helped me, and I gave it to him. Imagine my delight at a wonderful change. Abscesses all healed, crutches thrown away. He is now tall and stout, perfectly well and the thanks are all due to Hood's Sarsaparilla. Other mothers with crippled children should know this." Mrs. Emma V. Duff, Walpole, Mass.

Nervousness.—"I was weak, nervous and very delicate, staggered in attempting to walk. Hood's Sarsaparilla and Hood's Pills made me well. I feel like another person." Mrs. Lizzie Sutherland, Condit Street, Ext., Annapolis, Md.

Dyspepsia.—"We all use Hood's Sarsaparilla. It cured my brother-in-law and myself of dyspepsia. I owe my life to it." M. H. Kline, 607 Franklin St., Philadelphia.

Obituary.—Mrs. Wm. Frain, Laingsburg.

Died, early Tuesday morning at her home in Laingsburg, March 28th, 1899, after a brief illness of ten days, of grip, Mrs. Wm. Frain, in her 92d year.

Madame Rebecca Holcomb was born in Hartford, Connecticut, of sturdy New England stock, her paternal grandfather being a native of England, while her mother was a direct descendant of Gov. John Winthrop, of Colonial fame, her mother's maiden name being Rebecca Winthrop. At the age of fifteen years, she, in company with her parents and brothers and sisters, emigrated to Ontario county, New York, settling on a tract of land comprising six hundred acres on the west shore of Canadawaga lake. Miss Holcomb attended the Rushville academy and fitted herself for teaching school which she did very successfully for those early days and it was while teaching in Mt. Morris, Livingston county, N. Y., she became acquainted with her future husband, Wm. Frain, and in company with her husband's family came to Michigan, which was then a territory, in 1832, and lived a pioneer's life with all its privations and pleasures. Mrs. Frain in early life was converted and joined the M. E. church, of which she remained a faithful member, always in attendance until the feebleness of body compelled her to relinquish it. Her house was always known for its hospitality, being a home for all who came under its hospitable roof. She was of a kind and affectionate nature, always looking for something to do for others. Out of a large family of brothers and sisters there now remain but three: Buhl Holcomb of Athens, Mich., and Mrs. Julia Lyon and Mrs. Emily C. Marks, of Naples, N. Y. Mrs. Frain left five children: one daughter, Mrs. C. H. Hartwell, of Reading, Mich., and four sons, S. W. and C. H. Frain, of Laingsburg; L. W. Frain, of Kansas City, and W. R. Frain, of Beswick, Cal.; and several grand children, among them Miss Mabel Frain, of Laingsburg, Prof. Frain of Bay City and Cliff Hartwell, of Reading, Mich. The funeral was held Friday, March 31st, from the family residence, Rev. M. Chellis, of the M. E. church, conducting the service.

We, the family, thank the kind friends who so helped us and for the beautiful flowers, which were the last tribute of affection for "grandma." F. A. F.

Under the title "The Face of Christ in Art" an interesting collection of opinions of noted clergymen of many denominations has been made by Mrs. Wade Hampton, Jr., in reply to the question, "Is the Portraiture of Jesus in Art, Strong or Weak?" The question is answered by Cardinal Gibbons, Dr. Morgan Dix, Dr. Parkhurst, Rabbi Gottheil, Dr. Greer, Dr. Cuthbert Hall, Bishop Potter, Archbishop Corrigan, Dr. Watson (Ian MacLaren) and others. The article is illustrated with careful reproductions of many famous art pictures of Christ. It forms a peculiarly appropriate feature of the April Magazine number of The Outlook, as that is the Easter number. Other features of special Easter interest are a delightfully humorous Easter story by Samuel M. Peck, an illustrated Easter story for little people, and editorials, poems, etc., suited to the occasion. The design of the Easter cover is by C. W. Traver. \$3 a year. Too Much For Him.

It is evidently one thing to work without knowing how much we do and another thing to have our labors mapped out before us in detail. For several months a business house in this city has enjoyed the ministrations of an unusually faithful colored janitor. Always prompt and faithful, unerring in the discharge of his various duties, Tom was a great favorite with the firm, and the prospect was that he would abide with them many years.

One day it occurred to the senior partner that a little more system in Tom's routine would be advisable and perhaps render his work a trifle easier, so he wrote out in plain characters an outline of the chores Tom had been doing every week, arranged perhaps with more convenience to the firm and to Tom. Unfortunately Tom could not read, so the list was given to another man employed on rougher work, with instructions to read it to Tom and explain to him each day's prescribed duties.

When the schedule was read to Tom, however, the effect was astonishing and disastrous. He listened quietly, but his eyes grew bigger and his black wool seemed to bristle on his head. At the end he reached for his cap and said to the porter: "Good gracious! I ain't goin to do all that work." Then he walked out and hasn't been seen since.—Indianapolis Journal.

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

Regardless of Age.

The kidneys are responsible for more sickness, suffering, and deaths than any other organs of the body.

A majority of the most ailing people today is traceable to kidney trouble. It prevades all classes of society, in all climates, regardless of age, sex or condition.

The symptoms of kidney trouble are unmistakable, such as rheumatism, neuralgia, sleeplessness, pain or dull ache in the back, a desire to urinate often day or night, profuse or scanty supply.

Uric acid, or brick-dust deposit in urine are signs of clogged kidneys, causing poison and serum filled blood. Sometimes the heart acts badly, and tube casts (wasting of the kidneys) are found in the urine which if neglected will result in Bright's Disease, the most dangerous form of kidney trouble.

All these symptoms and conditions are promptly removed under the influence of Dr. Kilmer's Swamp Root. It has a world wide reputation for its wonderful cures of the most distressing cases.

No one need be long without it as it is so easy to get at any drug store at 50 cents or one dollar. You can have a sample bottle of this wonderful discovery, Swamp Root, and a book telling all about it, both sent to you absolutely free by mail. Send your address to Dr. Kilmer & Co., Binghamton, N. Y., and kindly mention that you read his liberal offer in The Owosso Times.

The Uses of Peat.

Peat may be used for textile purposes and also for papermaking. The exhibits at the Vienna exposition last year demonstrated this fact conclusively. Peat straw may also be used for many purposes, such as fertilizing, packing, etc. When used for textile purposes it must be woven without the use of oils or water. Coats, hats, carpets, rugs, ropes, matting and pillows are some of the articles which have been made, and which have been found useful. It is also a valuable substitute for absorbent cotton, possessing antiseptic properties as well.

Tricked the Vicious Camel.

A valuable camel working in an oil mill in Africa was beaten by its driver. Seeing that the camel had treasured up the injury and was only waiting a favorable chance for revenge, the driver kept a strict watch upon the animal. Time passed away. The camel, knowing that it was watched, was quiet and obedient, and the driver began to think that the beating was forgotten, when one night, after several months had gone by, the man was sleeping on a raised platform in the mill, while, as is customary, the camel was stabled in a corner.

Happening to awake, the driver saw by the bright moonlight that when all was quiet the animal looked cautiously around, rose softly and, stealing toward a spot where a bundle of clothes and a burnoose thrown carelessly on the ground resembled a sleeping figure, cast itself with violence upon them, rolling with all its weight and tearing them most viciously with its teeth. Satisfied that its revenge was complete, the camel was returning to its corner when the driver sat up and spoke. At the sound of his voice and realizing the mistake it had made, the animal was so mortified at the failure and discovery of its scheme that it dashed its head against the wall and died on the spot.

Jasper Blues Get Back Their Flag.

The eleven survivors of the Jasper Blues, a hard-fighting Georgia company of the civil war, are to be made happy by the return to them of the flag under which they fought for some time. Among the trophies of battle gathered by the First Maine cavalry was the flag in question, and this regiment carried it home to Bucksport, Me., in 1865. Most of the flags brought back by Maine regiments were sent to the state capital, but this one was given to a citizen of Bucksport, who hung it in his home. Last summer a Georgian visited Bucksport and saw the flag. He recognized the name "Jasper Blues," which is embroidered upon it, as belonging to a company of soldiers recruited in Jasper county, Ga., and negotiations were at once begun looking to the return of the banner. The Jasper Blues entered the service in 1861 and fought until the end of the war. The flag was given to them by the women of the county.

It Is Pathetic, Nevertheless.

The headline "Died Pennyless" loses nine-tenths of its pathos when one reflects that a minute after death the victim of such circumstances is just as well off as if he had died in possession of a hundred millions.—Indianapolis Journal.

While most persons come into the world crying, very few of them weep when they are leaving it.—Boston Transcript.

WHAT "ALABASTINE" IS.

Alabastine is a durable and natural coating for walls and ceilings. It is entirely different from all "kalsomine" preparations. Alabastine comes in white or twelve beautiful tints, and is ready for use by the simple addition of water. The latest make is adapted to mix with cold water. It is put up in dry powder form in five-pound packages, with full directions on every package. Alabastine has no equal as a wall coating. It is handsome, cleanly and permanent. It can be re-coated and retinted at slight expense. Its merits have made it popular. Prudent people coat their walls with pure, porous, permanent Alabastine, which is retinted with but little trouble or expense, is purifying and sweet-smelling, and fills cracks. Paint dealers and druggists sell Alabastine and furnish card of tints. A free copy of paper, "Alabastine Era," may be had by sending a postal to the Alabastine Co., Grand Rapids, Mich.
